GUEST SPEAKERS # 1

OPP officers –2 officers from the Ontario Provincial Police will update us on topics including:

Boating safety, including frequency of OPP on Crane & Blackstone Lake, what lakes they patrol and the big issue of speed/wake issues
ATV safety and enforcement issues trends
a recap of the 2017/18 sledding season in the detachment area
+ They have agreed to have a Q&A period, and will stay after the meeting to answers question

GUEST SPEAKER # 2

Rick Esslement – Founder, CEO of ESSE Canada, a family business providing inspection, maintenance programs, compliance reporting, sampling, design review and warranty services for onsite and communal septic/wastewater treatment systems across Canada. He is a strong advocate for educating property owners about the value of onsite septic/wastewater treatment, local water resource management and our responsibilities for water protection. His presentation will include 'Do It Yourself' information with best practices and practical advice to cottagers – whether preparing for an inspection, or just doing maintenance and due diligence on our own properties. Since water quality is the main concern for all stakeholders in our neighbourhood, this topic regarding septic systems, etc. will be very valuable to all that attend. Rick was a speaker at the Spring FOCA AGM. He is a professional presenter and extremely knowledgeable.
