President's Letter

Darlene Cade Fraser

Summer is at our doorstep and we are ready for some summer fun!! The time is here to gather once again with friends and family on our decks and docks, and to enjoy water activities in the clear waters of Crane Lake! This edition of our CLA newsletter has several excellent articles prepared by our board members which will bring you up to date on exciting topics currently under discussion and details of upcoming important events on Crane Lake. For those that have access to email, our recent E-Blast also introduced the current news and events, and this newsletter offers even more information for you!

The 2017 Annual General Meeting has an early start this year at 9:30a.m. and the coffee will be hot! Our business session will include several interesting topics and our Agenda is included in the newsletter for your easy reference. One of the items on the Agenda is 'Ownership of the Resort's Banquet Facility'. The Association recently received a letter from the lawyer representing the Owner of Crane Lake House Resort with their enquiry as to whether the Association is interested in purchasing the Banquet Facility.

A copy of the letter is included in this newsletter. Important facts within the letter include:

- The offer price is \$700,000.
- The offer deadline is 4:00pm July 17th, 2017 – allowing us time for discussion at the AGM.
- This offer is available only to the Crane Lake Association and is not extended to individuals (Members or otherwise);
- A vendor take back mortgage is not available;
- If purchased, the Facility will not be a part of the residential condominium plan;
- Purchase of the Facility will not grant use of the residential condominium amenities, including the Beach which the Crane Lake Association has used at no cost for its' annual Regatta.
- The letter is an initial offer only, with specific terms of the purchase to be reviewed if interest is indicated.

Your input is critical. In advance of the AGM, please share your thoughts with the Board by connecting to us by email at cranelakeassociation@gmail.com, or visiting our post on the website, www.cranelakeassociation.ca which has a form you can easily complete. The CLA will use this input to guide the discussion at the AGM where the formal vote will be made.

Following the formal AGM business meeting, we are delighted to welcome at 11:00A.M. our guest speaker, Mr. Peter Lillico. Peter is an Estate Planning Lawyer with exceptional expertise related to cottage succession, and his

topic is 'Keep the 'Family' in the Family Cottage'. We are so fortunate to include Peter in our AGM meeting at no cost to our members thanks to our membership in FOCA (Federation of Ontario Cottagers' Associations). FOCA is hosting the session! We have extended our invitation to Blackstone Lake Association, so it will be busy! Call FOCA at 705-749-3622 or email info@foca.on.ca to reserve your spot!!

Speaking of FOCA, you will find enclosed with this Newsletter, their 3rd Edition of 'A Shoreline Owner's Guide to Healthy Waterfronts'. FOCA has generously donated these booklets to Crane Lake Association and we know you will find them to be very resourceful! Great for the coffee-table for everyone to read!

As many of you are already aware, the Gas Pumps and the Store at the Marina are now open and under the operation of Mike and Sue Steele! It is important for all of us to support this operation by regularly purchasing our gas for our boats, and ice cream for our taste buds to prove to the operators that this is a sustainable business for them. Our community is more complete, and our properties that much more attractive, with their services in

our neighbourhood. Please include in your summer routine several trips to the gas pumps and the store! Enjoy the convenience and bring back the 'cottage experience at the Marina'!

The Board looks forward to seeing you all at the AGM, and we wish each of you a wonderful summer ahead!

Board of Directors 2016 - 2017

Automated External Defibrillators (AEDs)

Bruce Sanderson

This is an update on our new automated external defibrillators (AEDs). On the recent Victoria Day long weekend, our 5 new Philips Heartstart Onsite AEDs were deployed in our 5 Fire Pump boxes. The Crane Lake Association now has a total of 6 AEDs (all the same model) located around Crane Lake, including the one on our Fire Boat.

The AEDs located in the Fire Pump boxes are in bright orange waterproof carry cases. The AED on the Fire Boat is in the bin with the First Aid supplies in a red case. Also included in the bin on the Fire Boat is a knapsack with first aid items including bandages and a neck brace, an oxygen tank and masks, a burn kit, and the straps and head immobilizer pads for the back board.

As I mentioned in the last newsletter, these Defibrillators are available for anyone on the lake to retrieve in the event of a heart emergency and use to potentially save a life. We now have an AED strategically close to everyone on Crane Lake.

The Philips Heartstart OnSite model is one of the best designed and easiest to use in the world. From the moment you press the start button, it provides clear, audible instructions and adjusts to the pace you are proceeding. Most importantly, these AED'S will not deliver a shock unless they detect a heart rhythm consistent with a cardiac event, so they can't be used improperly.

I again encourage everyone to view the interactive video to familiarize yourself with how to operate these AED'S. Click on the link below, or access it from the CLA website. Even though these devices are designed to be used by anyone and provide clear instructions, for people who have never seen an AED before or if you don't know how they work, viewing the video will provide a comfort level in the event you find yourself in an emergency situation.

File No.: 569147-1

DELIVERED BY E-Mail TO dcade@cadeinsurance.comMs. Darlene Cade Fraser
President
Crane Lake Association
4800 Dundas Street West
Suite 100
Toronto ON M9A 1B1

Dear Ms. Cade Fraser:

RE: Crane Lake House Resort

As you know, we are counsel for N.D. McLennan Limited, the owner of the Crane Lake House Resort (the "Resort"), in the Township of Archipelago. We write further to our letter of May 25, 2017.

Our client has applied for a condominium conversion for the Resort. We understand that your Association expressed an interest, some two years ago, in purchasing the banquet facility portion of the building which contained the restaurant and banquet facility (the "Facility"), of the Resort while it operated. We are not aware of any express interest or attempts to contact our client to proceed with the purchase.

We kindly ask that you circulate this request to your Association. We ask that, should the Association be interested in purchasing the Facility you let us know no later than 4:00 pm on July 17, 2017. If we do not hear from you by this time we will presume that the Association has no interest in purchasing the Facility.

Provided we receive such notice, our client is willing to consider selling the Facility for \$700,000.00. A vendor take back mortgage will not be available. Also, although the specific terms of the purchase would need to be reviewed, the Facility will not be a part of the residential condominium plan and therefore any future owner(s) of the Facility would not have use of the residential condominium amenities made available to the residential condominium unit owners, including but not restricted to the tennis courts, beach area and playground.

We look forward to hearing from your Association.

Yours truly,
Dentons Canada LLP ~

Katarzyna Sliwa

2017 Cottage Succession seminar series:

Cottage Succession Overview

Learn how to “Keep the ‘Family’ in the Family Cottage”

Saturday, July 15th, 2017 11:00am – 1:00pm

@ Crane Lake Resort Meeting Hall, 510 Blackstone Crane Lake Road,
Parry Sound

Feature Speaker:
Peter Lillico
Estate Planning Lawyer

Event Co-Hosts:
FOCA & Crane Lake Association
Blackstone Lake Cottagers
Association

**This event is FREE to FOCA members, including all members of the Crane Lake Association and Blackstone Lake Cottagers Association,
or \$10 at the door for non-members.**

Pre-register to secure your space:
info@foca.on.ca 705-749-3622

*“If your goal is to keep your family in the cottage for **future generations**, my goal is to help you develop an agreement to secure a lasting and successful succession, avoid family friction and prevent ‘For Sale’ signs sprouting.*

It’s not lack of interest, capital gains tax or other financial pressures that result in most family cottages going up for sale, it’s a consequence of friction within the family that arises from sharing ownership and usage.”

~ Peter Lillico, Estate Planning Lawyer

Kids in the Biosphere

Georgian Bay Biosphere Reserve

Calling all Kids in Crane Lake!

Are you ready for fun and adventure this summer? Then you're ready to join Kids in the Biosphere!

Simply register online at bit.ly/2oFUzKc to receive your family's free activity kit full of outdoor games, crafts, and experiments. You will earn points for completing these activities, and prizes await you at the end of the program!

Have you participated before? You'll want to see the NEW activities we created, just for you!

Don't miss the Kid in the Biosphere's blog, fascinating facts and answers your questions by our local nature nuts. Plus, Biosphere staff will be on location at events throughout the Archipelago with crafts, games, and even our species at risk friends!

Discover the excitement: gbbr.ca/education/kids. For more info or to volunteer with the program contact Delaina and Tianna at kids@gbbr.ca, space is limited!

This Georgian Bay Biosphere signature program will be available to Crane & Blackstone Lake families at no cost with thanks to support from the Township of The Archipelago. Visit www.gbbr.ca to find information about other programs, subscribe to Biosphere News, and become a Biosphere Member.

- Keep in touch this summer, send us your nature questions and discoveries!
- Visit gbbr.ca to share your nature photos and find even more activities

For more info, email kids@gbbr.ca

Don't wait, space is limited.

Bylaw Changes in our Township

Bruce Sanderson

This spring, the Township of the Archipelago (TOA) updated some of their by-laws and introduced a new one. This article is not meant to be an exhaustive review of the by-laws, but I thought it would be informative to itemize a few of the changes that affect cottagers on Crane Lake. The highlights are below:

The Outdoor Burning By-Law has been updated as By-Law No. 2017-21 and repeals the previous By-Law No. 2004-36. Key points for Crane Lake cottagers are:

- Fires started outdoors must have a person in charge at all times and that person must remain in line of sight with the fire until it is totally extinguished.
- Do not start a fire without having adequate materials or devices (i.e. pails of water or a hose on hand) to extinguish the fire.
- During "Fire Season" (April 1 to October 31), open air fires, campfires or recreation fires cannot be started before 6 pm and must be extinguished not later than 2 am the following day.
- Campfires cannot be larger than 1 metre in diameter and 1 metre in height and must be at least 5 metres from any flammable materials.
- Campfires cannot be started unless the Fire Danger rating is Low or Moderate.
- Fires for cooking or warmth may be started when the Fire Danger rating is High, but campfires are not allowed. (This applies only to outdoor camping within

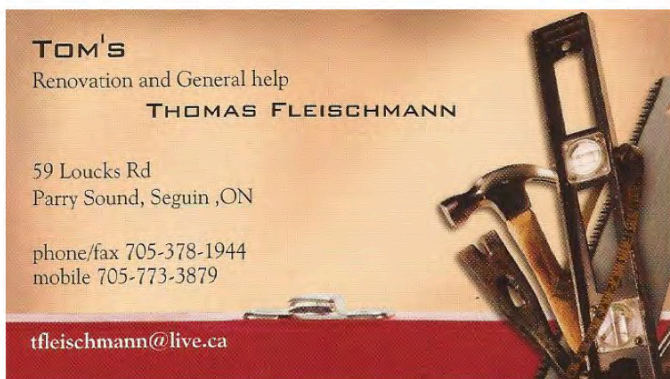

the TOA, as it is understood that if a cottager needs to cook or get warm when the Fire Danger rating is High, they can go inside).

- When the Fire Danger rating is Extreme (which is also known as a "Fire Ban"), absolutely no outdoor fires are allowed in the TOA.
- Municipal By-Law enforcement Officers are authorized to enforce the by-law and can charge fines from \$225 to \$425 (minimum fines for a first offense).
- In addition to any fines or penalties, person(s) responsible for setting fires are also liable to the Township for costs related to investigating complaints and or controlling or extinguishing the fire.

To review the complete Outdoor Burning By-Law, click on the link. http://www.thearchipelago.on.ca/media/21-2017_Burning_By-law.pdf

A new By-Law has been created to regulate setting off Fireworks, By-Law No. 2017-20. Key points for Crane Lake cottagers are:

- No Fireworks can be set off when the Fire Danger Rating is "High" or "Extreme" (same as for camp fires).
- Firecrackers and Sky Lanterns are banned within the TOA.
- Consumer Fireworks can only be set off on Victoria Day (the May 24th Holiday), Canada Day (July 1st) and Independence Day (July 4th) and/or the one day immediately preceding and/or following each of these days. The day before and after clause is an important change, whereas many people on Crane Lake were in contravention of the old by-law when they set off fireworks on the Sunday night of the Victoria Day weekend. This behaviour is allowed under the new by-law.
- Fireworks are only allowed between 6 pm and 11 pm on the allowed days.
- Persons under the age of 18 cannot set off fireworks unless they are under the direct supervision and control of a person 18 years of age or older.
- Suitable fire extinguishing equipment must be available at all times.
- Property damage or injury resulting from setting off fireworks is the responsibility of the person setting off the fireworks.

www.tom-can-help.com

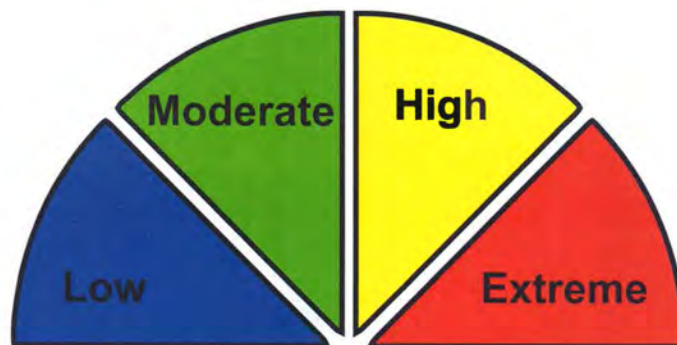

- Municipal Law Enforcement Officers (By-Law enforcement) are authorized to enforce the by-law and can charge fines from \$225 to \$610 (minimum fines for a first offense).
- In addition to any fines or penalties, person(s) responsible for setting fires are also liable to the Township for costs related to investigating complaints and or controlling or extinguishing any fire started by the setting off of fireworks.

To review the complete Fireworks By-Law, click on the link. http://www.thearchipelago.on.ca/media/20-2017_Fireworks_By-law.pdf

You can also review all Township by-laws by going to the website at www.thearchipelago.on.ca and searching for "By-Laws" under the "Residents" tab.

In addition to updating the By-Laws, the Township has simplified the Fire Danger Rating chart by combining the "Fire Ban" level with the "Extreme" level. The new chart is shown below. There is also an icon / link to the chart on the home page of the TOA and the Fire Danger rating is clearly shown on the home page.

Fire Rating: LOW	Fire Rating: MODERATE	Fire Rating: HIGH	Fire Rating: EXTREME
LOW	MODERATE	HIGH	EXTREME
LOW and MODERATE FIRE RATINGS: No person shall start a fire outdoors during the Fire Season (April 1 st to October 31 st) unless the fire is started not earlier than 6:00 p.m. in the evening, and is extinguished not later than 2:00 a.m. the following day or earlier. Fires for cooking and warmth permitted		Fire Danger is SERIOUS NO OPEN BURNING except contained campfires for cooking and warmth FIREWORKS PROHIBITED	Fire Danger is EXTREMELY HIGH NO OPEN BURNING of any kind! TOTAL FIRE BAN DECLARED + FIREWORKS PROHIBITED

Hi, Everyone:

The Real Estate market has been a roaring success so far across the Province. Property listing inventory is low which is generating higher prices for both cottage properties and residential homes as well. We attended the Cottage Life Show last March and have a strong client list of Buyers looking for all types of properties. It appears that the younger generation is inheriting family assets which are then allowing them to purchase properties that were out of reach before.

If you are contemplating selling, or would just like to know what your property is worth, then please contact me, I offer personal and discreet service. "Helping you is what we do."

Regards,

Gary R. Jennings,
Broker

Water Safety - Boat Wake & Speed

Ken Grant & Ross Fraser

Boat Speed

In the summer of 2015, we shared “Watching Your Wake”, an article published by the Pike Lake Community Association and shared with members of the Federation of Ontario Cottagers’ Associations. Watching your wake is an important part of responsible boating, as the impact of boat wake can be felt all across the lake, from shoreline erosion and damage to docks to creating unsafe conditions for smaller, unpowered watercraft and swimmers. For a copy of the article, visit our website at <http://www.cranelakeassociation.ca/newsletters/>.

Maximum Speed Limits

Speed is another important consideration in the safe and responsible operation of watercraft. In Ontario, our waterways are subject to a maximum speed limit that applies to all lakes and rivers in the province. A speed limit of 10km/h applies within 30m (just under 100 feet) of any shoreline. This limit is a part of the Canada Shipping Act and is in effect whether signs are posted or not. To ensure that all users of the lake are aware of this provincial speed limit and to encourage all boaters to respect the existing law, the Crane Lake Association has arranged for the official Transport Canada sign to be posted at the Government Docks. A copy of the sign follows on the next page for your review. While minding your speed in areas close to shoreline, be sure to also mind your wake! For more information about safe boating, read the Transport Canada safe boating guide by visiting: <http://www.tc.gc.ca/media/documents/marinesafety/TP-511e.pdf>

Boat Wake

There was a time when a “BIG BOAT” on Crane Lake was a 16 foot “runabout”, with a 60-70 HP, outboard motor! Today, newer boats to the lake are more in the range of 18 to 25 feet and have I/O or inboard engines. Many, such as wakeboard boats, are designed with the express purpose of maximizing wake produced. While this has resulted in amazing wakes/waves for wakeboard/ waterskiing enthusiasts, if not used responsibly, these watercraft and other larger boats can produce undesirable consequences for our shorelines such as excessive erosion and disturbance of wildlife habitat. Docks, swimmers, smaller non-motorized watercraft and other personal property can also be put at risk from excessive wakes.

What Can You Do To Help?

When travelling close to shore (less than 30 metres or approx. 100 ft), or in channels, such as Little Narrows or the Windy Narrows, the answer is not to just to reduce to the 10 km speed limit in these areas. Sometimes, just dropping speed can keep the bow up, potentially producing the largest wakes. The answer is to ***Slow Right Down, Bow Down, Wake Down, Idle Speed.***

Your fellow cottagers, swimmers and boaters will thank you for your boating courtesies!

Lastly, consider using the “BOATERS CODE” from Safe & Quiet Lakes as your guideline to safe and responsible boating practices. The Code is printed in this newsletter, following the Transport Canada sign. Additional resources and information can be found at safequiet.ca.

BOATER'S CODE

Respectful boating guidelines from Safe Quiet Lakes

1. I will never operate my boat beyond the level of my skills.
2. I will be aware of and obey all laws and regulations governing operation of my boat.
3. I will operate my boat with caution and courtesy to others at all times.
4. I will minimize my wake impact on shorelines, docks, structures and people.
5. I will always steer well clear of other boats, swimmers and wildlife.
6. I will set a speed and heading that is safe and comfortable for my passengers and others on the water.
7. I will provide safety instructions and offer appropriate life jackets or PFDs to everyone who travels in my boat.
8. I will carry all equipment necessary to operate my boat safely and within the law.
9. I will not consume alcohol in my boat or allow my boat to be operated by anyone who is impaired.
10. I understand that boating is a shared experience and I will not create excessive noise or operate my boat in a manner that disrupts the peaceful enjoyment of the lake by others.

Treasurer's Report

Steven Neugebauer

As of May 31, 2017, our combined bank/savings balance was \$35,451.09. The fund activity is summarized below:

	OPERATING FUND	CAPITAL FUND
Income	\$4,265	\$3,850
Expense	\$4,634	\$0
Net Gain (Loss)	(\$379)	\$3850
Balance at 01-Jan-2017	\$8,749	\$23,221
Balance at 31-May-2017	\$8,380	\$27,071

Our membership target for each year is 140 paid members, which would mean \$7,000 each of Operating and Capital fund income. We did not hit that target, as we received only 129 members paid for 2014; however we also had 1 membership paid in advance for 2017, and 10 memberships that caught up on their prior year(s) membership dues.

Based on our forecasted income and expenses, including reaching our target of 140 paid members for 2017, 2016, and 2015; we expect to end 2017 with \$38,358 combined bank/savings balance. The forecasted fund activity from now to the end of the year:

	OPERATING FUND	CAPITAL FUND
Income	\$4,720	\$3,600
Expense	\$4,296	\$1,116
Net Gain (Loss)	\$424	\$2484
Balance at 31-05-2017	\$8,380	\$27,071
Projected Balance at 31-Dec-2017	\$8,804	\$29,555

Our financial statements for the fiscal year ending December 31st, 2016 will be available at the 2017 Annual General Meeting in July, as well as an update to our financial position at that time.

Membership Report

Steve Neugebauer

As of May 31, 2017, 78 memberships of the Crane Lake Association have paid their dues for 2017, and 1 membership has caught up with their 2016 dues as well! Thank you to those members who continue to support the Crane Lake Association.

For those of you who have not yet sent in your 2017 dues, I hope you will join the membership this year. The association dues for 2017 are \$100. Benefits of membership in the Crane Lake Association include:

- High quality fire-fighting & life-saving equipment
- Winter, Summer and Fall Newsletters highlighting upcoming events and current issues
- Entitlement to vote at the Annual General Meeting and any Special Meetings that could arise
- Participation in the Crane Lake Regatta
- Representation in matters of mutual interest pertaining to the Crane Lake community.

If applicable, please forward your cheque payable to the Crane Lake Association, to the Membership Secretary:

Steven Neugebauer, 32 Arden Crescent,
Scarborough, ON, M1L 3R5, Canada.

Sailing Regatta Results

Steve Neugebauer

For the first time ever, the 2016 sailing race was held in the central part of the lake with the buoys located near Bump Rock, Kitty Island, and Overflow Bay! The weather was cloudy and winds were moderate, coming from the south-east. The sailors liked the course immensely, and felt it greatly enhanced the visibility of sailing on Crane Lake. Several boaters stopped to watch, and many cottagers could be seen watching from their docks. There were some inconsistent winds and dead areas which posed challenges to navigate to the buoy in Overflow Bay.

It was wonderful that we had a nine-year-old that came out in a punt, to compete against the “big guys”. If we want to continue seeing this wonderful tradition of sailing on Crane Lake, then we need to encourage more participation from the younger generations.

The sailors were very competitive this year, including stealing wind from each other, and delaying tacts to force others into a worse position. This led to one collision, and a couple of near misses!

The final stats on the race:

PLACE	SKIPPER	VESSEL	TIME ELAPSED
1	Mark Istvan	Laser	0:45:45
2	John Collins	Laser	1:03:54
3	Chuck & Graham Erion	Tanzer 16	1:09:13
4	Klaus Faisst	Windsurfer	1:09:20
5	Bob Neugebauer	JY 15	1:10:45
6	Dylan Follett	Optimus	1:33:44

This year the sailing race will be on Sunday, August 6th at 2:00pm (rain date on Monday, August 7th at 11:00am). The 2017 race will be in the north end. I hope so see everyone again this year, and more.

The sailors from left to right: Bob Neugebauer, Klaus Faisst, Dylan Follett, John Collins and Mark Istvan

Water Quality Report

Gary Mueller

I will be taking over the water testing program from Devon Piirto. Please join me in and around of applause for an outstanding job Devon has done over the years with her partner in crime Eric Piirto!

Thank you and you both and will be greatly missed on Crane Lake as you turn the page on your next chapter of life!!!

As I begin my journey on the water testing program with my son's Tyler and Gavin I look forward to working with all the Crane Lake cottagers on preserving the water of the this majestic place we all enjoy for future generations.

As a reminder your shore line is the most sensitive filter on what helps maintain our water quality. As I boat around our lake I see a few cottages which may not understand how vital it is on maintaining trees and vegetation on the shore line.

Please visit the link below for a video that helps describe the "Ribbon of Life"

Ribbon of Life Video - <https://vimeo.com/90929405>

Remember your cottage is only good based on our water quality.

On another note growing grass near the waters edge will only increase the geese population which will lead to poor water quality as they feed on grass and grow in numbers using our lake as a waste disposal. I have been on the lake for over 40 years and never seen geese breeding on Crane Lake until the last ten years. It's all up to us all to keep the balance on this sensitive environment.

Dr. Tracey Beaulne ND, R.Ac Naturopathic Doctor & Acupuncturist is at Crane Lake this summer!

Dr. Beaulne treats individuals who suffer with gas, bloating, and other chronic gastrointestinal upset, weight gain, low energy, muscle aches, stress, auto immune diseases, thyroid issues, food reactions and hormonal imbalances.

The gastrointestinal tract and its ecosystem is your portal to optimal physical and mental health. "

Sail Parry Sound

The following is a message from Sail Parry Sound

Here's hoping you are having a great start to the summer. Being a not for profit organization, managed by volunteers, Sail Parry Sound always appreciates the help from our community in spreading the word about our programs and facilities. We have several exciting events and programs lined up this summer at Sail Parry Sound:

Our award-winning sailing day camp, operating since 1998, welcomes youth aged 8-18 by the week, and adults by appointment for eight weeks on the beautiful Parry Sound, Georgian Bay waterfront. Managed by volunteers, who employ Canadian Yachting Association (CYA) certified instructors, the school organizes and manages sailing races and events. Enjoy fresh delicious snacks and drinks, with a spectacular view of the bay on the upper deck at Sail Parry Sound. Experience the fun this summer! Please visit us at <http://sailparrysound.on.ca> to learn more about the programs, registration, members' sailing evenings, and how you can join Sail Parry Sound to enjoy the finest freshwater sailing in the world. Sail Parry Sound is located in Parry Sound on the Waterfront Trail: first left, North of the Stockey Centre. We are excited about the opportunity of welcoming you and your members to our facilities and programs this summer.
